OBJECTIVE: Currently Studying computer science at the University of Auckland. Outside of school, I like to practice in full-stack development using the MERN stack and robotics projects. I enjoy turning ideas into practical, user-focused applications and solving problems through codes. Seeking a software engineering internship where I can contribute to real-world projects, learn from experienced developers, and continue growing as an engineer.

WORK EXPERIENCE:

Marketing Executive UoA GDG

August 2026 – Present

Responsibilities:

- Promoted tech events, workshops, and game jam across digital platforms to increase student engagement and community outreach
- Created targeted marketing strategies and campaign content to drive student turnout and membership growth within the tech community
- Collaborated with cross-functional executive teams to manage brand presence and public relations on campus

PROJECTS:

Task Management Web Application

December 2025 – Present

Using MERN Stack

- Developed a full-stack task management web application using the MERN stack.
- Designed and implemented RESTful APIs for user authentication and task management.
- Built a responsive React user interface for creating, organising, and managing tasks
- Implemented secure authentication using JWT, HttpOnly cookies, and bcrypt password hashing.

VEX Robotics Club

May 2022 – May 2023

In Ōtūmoetai College

- Designed, built, and programmed a competitive robot for the VEX Robotics Competition.
- Served as Team Coach and Strategy Lead, directing the drive team in real time during matches to optimise decision-making and execution.
- Integrated mechanical components, sensors, and motors to optimise autonomous and manual driver control.
- Developed autonomous control scripts and systematically debugged code errors to improve accuracy and performance under match constraints.

EDUCATION:

Bachelor of Science in Computer Science

University of Auckland | 2025–Present

SKILL:

HTML	
CSS	
JavaScript	
Python	
Java	

AWARDS & HONORS

**Outstanding in
Programming**
2025

From University of Auckland:

- Certificate of Outstanding Achievement awarded for achieving an A+ in Principles of Programming.

**Second Place in
VEX Robotics National NZ**
2022-2023

From VEX Robotics:

- Second place in 2023 SPIN UP VEX Robotics National New Zealand

VOLUNTEER EXPERIENCES

STARS Mentor
Feb 2024 – Nov 2024

Graeme Dingle Foundation

- Mentored new high school students (Year 9) to support their academic transition, personal resilience, and social development
- Facilitated interactive group activities and peer-support sessions to build leadership, teamwork, and confidence among mentees
- Served as a positive role model while assisting event coordination and community service projects
